

# Family Huts Activity

Timucua Hut

- 1) In the square above, draw a picture of the outside of your current home. Describe one difference between your home and a Timucua hut that you can see by looking at these drawings. \_\_\_\_\_

---

---

- 2) The insides of Timucua huts were also very different from modern Florida homes. Think about the differences between the insides of a Timucua hut and the home you live in right now. Write to explain these differences.

# Family Huts Activity

- 1) Sample Answer: My home is shaped like a rectangle, and Timucua homes were round.
  
- 2) Sample Answer: Here are some differences between the inside of a Timucua hut and my home. The inside of a Timucua hut had only one room. My home has different rooms for cooking, sleeping, and playing. The Timucua did not have toilets, stoves, or air conditioning, and my home does. I live in an apartment, so many homes are joined together. The Timucua did not join their huts together. The Timucua also did not have electricity or running water like I do. This means they did not have to pay water or electric bills.
