

Eastern Box Turtle

Coloring Instructions: Color the streaks on its shell bright yellow. Color its nose, facial stripes, and chin light yellow. Color the under shell light yellow too. Color the rest of the turtle dark green. If it's a boy, color the eye red. If it's a girl, color the eye yellowish-brown.

Interesting Fact: Box turtles have a hinge on the bottom of their shell. They can pull in their head and close this hinge to protect their head from predators.
