

Soft-shell Turtle

Coloring Instructions: Color the eye and the rim around the turtle's shell yellow. Its chin should be yellow too. Color the markings on its shell a very dark green, almost black. Color the spaces around the markings a greenish-yellow. Color the turtle's tail, legs, and head dark green.

Interesting Fact: A soft-shell turtle's shell feels leathery and smooth. This pancake-shaped turtle's long neck and sharp jaws make it a dangerous biter. This turtle uses its snorkel-like nose to reach the air when it's sitting underwater.
